PROPAGATION AND DISTRIBUTION OF

## FOOD FISHES

FOR THE FISCAL YEARS

1965 & 1966

UNITED STATES DEPARTMENT OF THE INTERIOR
FISH AND WILDLIFE SERVICE

BUREAU OF SPORT FISHERIES AND WILDLIFE

FISH DISTRIBUTION REPORT 2

The United States Department of the Interior, created in 1849, is concerned with management, conservation, and development of the Nation's water, wildlife, fish, mineral, forest, and park and recreational resources. It has major responsibilities also for Indian and Territorial affairs.

As America's principal conservation agency, the Department works to assure that nonrenewable resources are developed and used wisely, that park and recreational resources are conserved for the future, and that renewable resources make their full contribution to the progress, prosperity, and security of the United States, now and in the future.

#### PROPAGATION AND DISTRIBUTION OF FOOD FISHES FOR THE FISCAL YEARS 1965 AND 1966

#### Prepared by the Division of Fish Hatcheries

This report on fishes and fish eggs distributed by the 93 national fish hatcheries from July 1, 1964, to June 30, 1966, is a continuation of a series of publications issued since 1872. Records of hatchery output were published in annual reports of the U.S. Commission of Fish and Fisheries through 1903 and in annual report appendixes of the Bureau of Fisheries of the Department of Commerce until 1940. From 1941 through 1962, these tabulations were presented as Statistical Digests of the Fish and Wildlife Service and Bureau of Sport Fisheries and Wildlife in the Department of the Interior, Fish Distribution Report 1 recorded the hatchery allocations for the calendar years 1963 and 1964.

The National Fish Hatchery System produces salmon, trout, catfish, pike, perch, bass, and sunfish, which are stocked to create, maintain, and restore fishing for sport and food. Several additional species of fish are produced or collected for use as test animals in various research projects. These fish are allocated, on the basis of the following statement

of policy, to management, restoration, and research programs developed in cooperation with the States and with other Federal agencies.

It is the policy of the Bureau of Sport Fisheries and Wildlife to allocate or distribute the output of its fish hatcheries in the following order of precedence:

a. Primary obligation will be in the stocking of waters on lands under the control of the Federal Government, including national parks, national monuments, national forests, Indian reservations, Bureau of Reclamation reservoirs. areas under the control of the Tennessee Valley Authority, areas under the control of the Bureau of Land Management, wildlife refuges administered by the Bureau of Sport Fisheries and Wildlife, areas directly controlled by Federal agencies concerned with the relief of agriculture, and miscellaneous waters controlled or administered by other Federal Government agencies (including areas where Federal water-use projects have affected fish populations). For the purpose of this policy, ponds, reservoirs, etc., constructed on private lands with the aid and encouragement either financial or otherwise of the Federal Government, will be included in the foregoing category.

b. Secondary obligation will be in stocking State waters, including the lakes, streams, ponds, etc., which are open to public fishing. This stocking will be carried on either by direct plant under the supervision of the Bureau's employees, by arrangement with State conservation departments, or by furnishing fish in response to applications from responsible organizations or individuals.

c. After apportioning the hatchery output to meet the above obligations, any remaining fish may be utilized in filling applications for private waters, this term to be construed as meaning lakes, ponds, or streams which are not open to the general public and which are not commercialized in any way.

#### THE HATCHERIES

During the biennium, adjustments were made in the hatchery system with authorization of funds for construction of two new hatcheries, for the continuation of construction at six other new units, and for major rehabilitation of 27 existing facilities. Eight units were closed.

New units for which funds were allocated to initiate construction are as follows:

Allegheny (Pennsylvania) Hatchery (73 Stat. 430, August

25, 1959).—The Alleghenv National Fish Hatchery site below Allegheny Reservoir was selected because of the water supply available and its proximity to the stocking area. An excellent ground water supply from wells is also available for tempering the reservoir water to obtain optimum temperatures for trout production. The hatchery is located in the midst of a large recreation area, within the bounds of the Allegheny National Forest. The Seneca Indian Nation has substantial land holdings in the vicinity of the reservoir, and the hatchery will play a significant role in bolstering the economy of these people and others living in the

Warm Springs (Oregon) Hatchery (79 Stat. 184. May 31. 1966).—The Warm Springs National Fish Hatchery is being constructed on the Warm Springs Indian Reservation. This facility will produce about 150,000 pounds of salmon and trout annually, assisting in the preservation of historic salmon runs in the Warm Springs River. It will also provide employment opportunities for Indians who may wish to enter the fishery field.

New units receiving funds for completion or continuing the construction programs under way were as follows: Quinault (Washington), \$308,000; Mescalero (New Mexico), \$266,000; Dale Hollow (Arkansas), \$406,000; Lahontan (Nevada), \$374,000; Greers Ferry (Arkansas),

\$177,000; Wytheville (Virginia), \$326,000; and Kooskia (Idaho), \$255,000.

Major rehabilitation projects, including expansion. modernization, and repair of facilities were initiated at the following national fish hatcheries: Bozeman (Montana), \$283,000; Leavenworth (Washington), \$150,000; Coleman (California), \$377,000; Quilcene (Washington), \$44,700; Saratoga (Wyoming), \$376,000; Springville (Utah), \$168,000; Carbon Hill (Alabama), \$36,000; Carolina). Cheraw (South \$61,000; Corning (Arkansas), \$99,000: Harrison Lake (Vir-\$78,000; ginia). Natchitoches (Louisiana), \$421,000; Cortland (New York), \$443,000; Lamar (Pennsylvania), \$453,500; Leetown (West Virginia), \$180,000; Gavins Point (South Dakota), \$80,000: McNenny (South Dakota), \$25,000; Valley City (North Dakota), \$122,700; Mammouth (Arkansas), \$122,000; Spring Warm Springs (Georgia), \$33,000; Welaka (Florida), \$145,500; Pisgah Forest (North Carolina), \$196,000; Fairport \$80,000; Guttenberg (Iowa), (Iowa),\$85,000; Spearfish (South Dakota), \$38,000; Genoa (Wiscon-Brook sin). \$138,000: Craig (Maine), \$210,000; and Berlin (New Hampshire), \$203,600.

Fish-cultural operations by the Federal Government were discontinued at Berkshire (Massachusetts); Rochester (Indiana); Hot Springs (New Mexico); Creede (Colorado); Allegheny Forest (Pennsylvania); San Marcos (Texas); Pisgah Forest #1 (North Carolina); and New Castle (Virginia).

For administrative purposes, the Bureau of Sport Fisheries and Wildlife groups the States into five regions as follows:

Pacific Region (Region 1, P.O. Box 3737, Portland, Oreg. 97208).

—Alaska, California, Hawaii, Idaho, Montana, Nevada, Oregon, and Washington.

Southwest Region (Region 2, P.O. Box 1306, Albuquerque, N. Mex., 87103).—Arizona, Colorado, Kansas, N. Mex., Oklahoma, Texas, Utah, and Wyoming.

North Central Region (Region 3, 1006 West Lake Street, Minneapolis, Minn., 55408).—Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

Southeast Region (Region 4, Room 809 Peachtree-Seventh Building, Atlanta, Ga., 30323).—Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and the District of Columbia.

Northeast Region (Region 5, U.S. Postoffice and Courthouse, Boston, Mass. 02109.—Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia.

## NAMES OF FISHES USED IN THIS PUBLICATION

The following listings show the scientific names of fishes appearing in the tables. Those species recorded as Miscellaneous are also identified. The nomenclature used is that established in the American Fisheries Society Special Publication No. 2, A List of Common & Scientific Names of Fishes From the United States & Canada.

Common name

SALMON/TROUT. etc.:

Scientific name

Salmonidae:

SALMON/INCOT, ex	Saimonidae.
Chum salmon	Oncorhynchus keta (Walbaum)
Coho salmon	Oncorhynchus kisutch (Walbaum)
Sockeye salmon	Oncorhynchus nerka (Walbaum)
Chinook salmon	Oncorhynchus tshawytscha (Walbaum)
Golden trout	Salmo aguabonita Jordan
	Salmo clarki Richardson
	Salmo gairdneri Richardson
Kamloops trout	<b>3</b>
Steelhead trout	
	Salmo salar Linnaeus
Landlocked Atlant	
	Salmo trutta Linnaeus
	Salvelinus fontinalis (Mitchill)
	Salvelinus namaycush (Walbaum)
	Thymallus arcticus (Pallas)
PIKES:	Esccidae:
-	Esox lucius Linnaeus
Muskellunge	Esox masquinongy Mitchill
SUCKERS:	Catostomidae:
Buffalo	Ictiobus spp.
FRESHWATER	
0.189707790	
CATFISHES:	Ictaluridae:
White catfish	Ictalurus catus (Linneaus)
Bullhead	Ictalurus spp.
Channel catfish	Ictalurus punctatus (Rafinesque)
Flathead catfish	Pylodictis olivaris (Rafinesque)
SEA BASSES:	Serranidae:
	Roccus chrysops (Rafinesque)
	Roccus carysops (Kalmesque)
Durped bass	

## Scientific name

SUNFISHES:	Centrarchidae:
Green sunfish	Lepomis cyanellus Rafinesque
Bluegill	Lepomis macrochirus Rafinesque
Redear sunfish	Lepomis microlophus (Gunther)
Smallmouth bass	Micropterus dolomieui Lacepede
Largemouth bass	Micropterus salmoides (Lacepede)
White crappie	Pomoxis annularis Rafinesque
Black crappie	Pomoxis nigromaculatus (LeSueur)
PERCHES:	Percidae:
	Perca flavescens (Mitchill)
Walleye	_Stizostedion vitreum vitreum (Mitchill)
MISCELLANEOUS:	
Gar	
	_Carassius auratus (Linnaeus)
Carp	_Cyprinus carpio Linnaeus
Mosquitofish	-Gambusia affinis (Baird and Girard)
Sticklebacks	
Tilapia*	Tilapia spp.
*Exotic species—not	included in Special Publication No. 2
